The meat question is attracting unusual interest lu all of our eastern cities. Butchers continue to charge famine prices, notwithstanding it is a senson of great agricultural plenty, with grass more abundant than for years, gold at less than half the price it was a year ago, and with a general reduction in the price of almost every other article of food, as well as apparel. The necessity is forced upon a large class of consumers to abandon meat diet, and the wealthier class is also preparing for the same course of abstinence. on principle. Hotels are also becoming interested in the subject, and the butchers will soon find themselves without customers, unless they show some inclination to deal fairly.

be one of the most important convention is to meet in betroit on the luth inst. It will be one of the most important conventions ever held in this country. Forty-two boards of trade, representing nearly all the large cities in the north and west, will be present, and like associations in Canada will send delegates. It is said that the treasury department will send a property of the constant of t prominent official representative. We abserve that the citizens of betroft are preparing to give their visitors a splendid welcome and entertainment on that occasion,—'Cincinnati Commercial,

The importance of the Detroit convention, which is to assemble ou Monday next, has not been over estimated. That it will exert un immense influence upon the trade and business of the west will not, we think, be questioned by intelligent persons. The commercial importance of Louisville demands that the city should be represented. There is yet sufficient time to remedy the apathy, which, on this subject at least, seems to prevail in this city. A delegation of our most ninent and far-seeing merchants should, by all means, be present at the convention, to take part in its deliberations and fairly represent the mercantile and commercial interests of the city.

Notice to Undertakers. WETAKE PLEASURE IN ANNOUNCING TO the Undertakers of Kentucky, Indiana, Tenpesse, Arkanaus, Mischsippi, Alabama and Louisiana, et. Situler & Co.'s matty celebrated alr-tight galvanized wrought iron Caskers and trasses, which for lightness, elegance of styte, and richness of finish, and chastness of mounting, excel all other Hurial Cases ever oftered to the public, we have concluded an arrangement with W. M. Raymond & Co., on New York, whereby we can supply Undertakers in the above named States with Caskets and Cases from their manufactory, at the current New York prices, with cost of transportation added, which is about to per cent. less than any other Metaille Enrial Cases can be promored for. The Cases of W. M. Raymond & Co.'s manufacture possess great advantages over any other cast metal Case in neatness of this hand in having a flange covering the content cooling out of the olint, which every Undertaker knows is a great ob ection to the Metailic Cases in common use in this part of the connery. With our present arrangements we can make it to the interest of Undertakers to purchase the Metailic Cases in common use in this part of the connery. With our present arrangements we can make it to the Interest of Undertakers to purchase the Metailic Cases iron as, We are the only house in the United States which can rurnish the trade with the goods o, both these celebrated manufacturers at such low prices. o. both these celebrated manufacturers at such 10 w prices.

We hardly deem it necessary, at this day, to notice the superiority of the Metallic Cases over any wooden box that can be made in limitation of them, in which the remains are floating in water after the first rain talls after interment, often for months and decay of wood, which renders he mothing of the decay of wood, which renders he manus an impossibility, should it become necessary. We also keep on hand a general assortiment of wooden coffins, and are prepared to attend all funeral calls in city or country by day or night.
